RE: Our Building

Dear Mr. Armstrong,

It is with great pleasure that I relay to you the compliments we get on our building. Everyday we have customers shopping at our store telling us how impressed they are with the design of our structure. They say how much fun and unique it is to walk through a real silo into the showroom, or as some refer to it, "the barn." With the open wood trusses and the loft it really feels like an old barn. Yet the impressive fireplace reaching upward of forty feet gives us all a warm cozy feeling.

Akra Builders has been a pleasure to deal with, from the start of our project through completion and subsequent follow through. Your handling the "details" made it possible for us to focus on our business and not be consumed with construction problems or set backs. The resulting facility is one I know we will be proud of for years to come.

Harley-Davidson Motor Company has also recognized our shop by nominating it for an interior design of the year award. We have been awarded a bronze plaque as an approved retail location for Harley-Davidson.

Our success over the past six months is attributable to this great building and for that we thank you.

Sincerely,

Paul E. Gutman
Dealer Principal
